This year marks the 20th Anniversary of the World Knowledge Forum. Thanks to the benevolent support and enthusiasm from many knowledge seekers around the world, the World Knowledge Forum has grown into one of the most prominent knowledge symposiums in the world. The World Knowledge Forum has successfully tackled new challenges each year, and as a result it has rewritten the history of the forum industry for over a decade.

The World Knowledge Forum never fails to reflect the timely trends and agendas of the world. We are confident that our forum have set the bar high for other forums on a global scale. The World Knowledge Forum will once again provide attendees the opportunity to experience a new spectrum of knowledge like no other. We are facing challenges like never before in political, economic, and societal realms. The trade dispute between G2 has escalated into a technological hegemony conflict while the prospects of the global economy and finance do not look promising. Furthermore, the global governance has also weakened due to lack of clear leadership. We will overcome these hardships through “Knowledge Revolution 5.0.” Knowledge Revolution 5.0 aims for the prosperity of humanity in all fields including technology, institution, and culture. The World Knowledge Forum has devoted itself to sharing knowledge with the belief that it is the sole way to ensure the prosperity of humanity.

This year, esteemed power elites and global scholars from various fields will provide knowledge and insights to search for ways to guide the humanity towards harmony and prosperity through growth and development.

Founder of the World Knowledge Forum
Chairman of Maekyung Media Group
CHANG Dae-Whan Ph.D.
REGISTRATION INFORMATION

- Registration for the 20th WKF is only available online: www.wkforum.org
- Tax invoice for the registration fee will be sent via e-mail.

Incheon International Airport – The Shilla Seoul / Jangchung Arena

- By car
  - From Bundang: Hannam Bridge → Jangchungdan Gil → Back gate of The Shilla Seoul → The Shilla Seoul / Jangchung Arena
  - From Gangnam: Donghodaegyo Bridge → Turn left at the intersection of Jangchung Gymnasium → The Shilla Seoul / Jangchung Arena
  - From Yongmung: Turn left after passing through Namsan Tunnel 2 → Back gate of The Shilla Seoul → The Shilla Seoul / Jangchung Arena

- By bus
  - Bus stop at Jangchung Arena (Bus nos. 144, 301, 407, 7232)
  - Bus stop at Dongguk Univ. Station (Subway Line 3)

- By Taxi
  - Deluxe Taxi: about one hour (Approx. KRW100,000 – toll fees included)
  - Normal Taxi: about one hour (Approx. KRW70,000 – toll fees included)
Immediately after the 1997 Asian financial crisis, the World Knowledge Forum was launched in October 2000 after two years of preparation with the ambition to transform Korea into a knowledge-driven nation. Since then, the World Knowledge Forum has taken on the role as a platform for discussions to reduce knowledge gaps through knowledge sharing, and promote balanced global economic growth and prosperity. A total of over 4,200 global speakers and 46,300 audiences have participated since the first forum with the theme of “Shaping the New Millennium with Knowledge” in 2000, and the forum has now become the biggest knowledge festival in the world.

Past speakers at the World Knowledge Forum include the following: George W. Bush, The 43rd President of the United States of America; Tony Blair, The 73rd Prime Minister of Great Britain and Northern Ireland; Nicolas Sarkozy, The 23rd President of the French Republic; Gerhard Schroeder, The 7th Former German Chancellor; Yoshihiko Noda, The 85th Prime Minister of Japan; John Howard, The 25th Prime Minister of Australia; Jim Yong Kim, The 12th President of World Bank; Le Luong Minh, The 13th Secretary-General of ASEAN; Bill Gates, Co-founder of Microsoft Corporation; Richard Branson, Founder & CEO of Virgin Group; Michael Dell, CEO of Dell Technologies; Larry Ellison, Chairman and CEO of Oracle Corporation; George Soros, Chairman of Soros Fund Management; Larry Summers, 71st US Secretary of the Treasury; Paul Krugman, Professor at Princeton University; Gregory Mankiw, Professor at Harvard University; Paul Kennedy, Professor at Yale University; Michael Porter, Professor at Harvard University; Francis Fukuyama, Author of “The End of History”; and Joseph E. Stiglitz, 2001 Nobel Peace Laureate in Economics.

Marking the 20th anniversary of the World Knowledge Forum, around 250 speakers and 3,500 audiences will gather to discuss various agendas under this year’s theme of “Knowledge Revolution 5.0: Perspicacity Towards Prosperity for All”. Speakers are François Hollande, The 24th President of the French Republic; Esko Aho, The 37th Prime Minister of Finland; Fatih Birol, Executive Director of the International Energy Agency (IEA); Steve Chen, GV Advisor & Co-Founder of YouTube; Brian Duperreault, CEO of AIG; Jan Marsik, CDO of Siemens Digital Industries; Rasee Dubey, Group President of Mahindra & Mahindra; Robin Niblett, Director of Chatham House; Nouriel Roubini, Professor at New York University’s Stern School of Business & CEO of Roubini Macro Associates, and many other world-renowned speakers will be attending to grace the occasion.

Collective Intelligence: Overcoming Global Pandemonium
Knowledge has been with mankind since the birth of humanity and has served as the basis for decision-making in our society until now. The knowledge capacity has been the deciding factor in defining the prestige of society as well as its whole identity. Humanity has experienced four explosive knowledge expansions known as the ‘revolutions’ so far. Knowledge Revolution 1.0 started with the Cognitive Revolution (circa 70,000 B.C.), which Yuval Harari has explained in his book, Sapiens, as a period when humans first began to recognize and imagine. As humans began to think and communicate freely with each other, they acquired a trait that differentiated them from animals. Knowledge Revolution 2.0 has manifested itself as the first Agricultural Revolution circa 10,000 B.C. Humans who relied on hunting and gathering began to settle and use various techniques to farm. Knowledge Revolution 3.0 is the Scientific Revolution. With the emergence of modern science, major countries have entered the overseas market more freely. Knowledge Revolution 4.0 is the Industrial Revolution.

Through new technology, the steam engine, productivity expanded rapidly and capitalism based on the market system took its form. Furthermore, as the Internet and data communications have developed, the connectivity between people and mass production has become common. Now, we are on the verge of entering another new society. As all the transitional periods are tumultuous, the world’s current economy, politics, and society all face uncertainties. Therefore, the 20th World Knowledge Forum suggests the following theme: Knowledge Revolution 5.0: Perspicacity Towards Prosperity for All. The Knowledge Revolution 5.0 refers to an entirely new approach in which the entire human race can advance with the proper technological development. To make the Knowledge Revolution 5.0 successful, a strong perspicacity is needed. The 20th World Knowledge Forum has invited the best experts in each field to set the stage for candid discussions with a perspicacity that can open the door to a new world for mankind.
The time has arrived for humanity to have a transition period for new knowledge. So far mankind has evolved and developed through so-called ‘Knowledge Revolutions’ four times: Cognitive Revolution, Agricultural Revolution, Scientific Revolution, and the Industrial Revolution. However, those revolutions are now outdated to cope with current critical global issues. We need ‘Knowledge Revolution 5.0’ to solve problems such as the trade/technology hegemonic war between the U.S. and China, North Korea’s denuclearization and climate change. We must seek the Knowledge Revolution 5.0 if we are to solve those challenges and achieve innovation and prosperity for all humanities. Current and former heads of states and top global CEOs will offer a blueprint of Knowledge Revolution 5.0 with keynote speeches.

The world’s political landscape is in the midst of a massive shift. Anti-immigrant, anti-EU-backed far-right populist parties and Greens swept the continent and gained grounds in the recent European Union Parliament elections. The center-right and center-left parties that once were dominant powers of European politics after World War II, have weakened greatly as they lost their majority. Besides, geopolitical risks are increasing globally, including the North Korean nuclear issue, the US-China conflict, and the UK-EU rift due to Brexit. Think tank leaders, former heads of states, and other experts from around the world will diagnose chaotic geopolitical problems and discuss solutions to those challenges.

The trade war between the United States and China is increasing uncertainties of the global economy. With the US tariff hikes on Chinese products, China’s growth rate began to slow down and this is expected to eventually hurt the global economy. If the US-China trade dispute is prolonged, it is predicted that the US, which pursues the “America First” policy, will also suffer and find it difficult to avoid economic losses. The International Monetary Fund (IMF) cut its global economic forecast from 3.5% to 3.3% in its latest report. The IMF warned that the global economy could see slower growth due to high Brexit-related uncertainties. The sessions at the World Knowledge Forum will feature in-depth discussions on global economic diagnosis and prospects for 2019. In particular, speakers will seek new growth equations for the world economy through a detailed analysis of various global economic conditions including the US-China trade dispute and monetary policy.
Uncertainty in the global financial market is growing as the volatility of major stock markets increases. The global economic slowdown is accelerating faster than expected, and concerns over the prolonged US-China trade war are spreading. This track will offer sessions that analyze global investment trends and present proper investment direction in today’s era of increased uncertainty and volatility.

Rebirth of Finance

Even if new technologies emerge and society changes rapidly, the fundamental values sought by humans do not change. In this track, we will share a variety of knowledge in humanities which can enrich people’s lives. Jia Jang, the author of “Rejection Proof: How I Beat Fear and Became Invincible,” will share his own experience and present effective tips to the audience. There will also be a special session focusing on K-pop. In addition, a workshop for negotiation skill will be taught by Professor Robert Bordone from the Harvard Law School.

Viva la Vida: Ways to Vivify Every Moment

Technology innovation is transforming our world at an unprecedented speed. As fast-developing technologies expand into new areas, they are changing the industry landscape and people’s lifestyles. Both optimism and concerns exist over the potential impacts of technological innovation on human life. Global corporate leaders who are leading innovations such as artificial intelligence, big data, blockchain, quantum computing, 5G, robots and autonomous driving will join us to offer insights into the future through in-depth discussions.

The Future of Technology Innovation

This session discusses the future and leadership of One Asia which will newly lead the global economy. Asian entrepreneurs, politicians, and scholars will seek for measures on the sustainability of Asia’s economic growth and expansion of One Asia leadership through intensive discussions on China and ASEAN. To do so, problems surrounding each country’s interests such as history and wealth gap issues, will be analyzed and desirable solutions will be suggested. As this year marks the 30th anniversary of the establishment of ASEAN-Korea relations, the ASEAN market where inter-country exchanges have increased following South Korea’s New Southern Policy will be observed closely during the session.

Viva la Vida: Ways to Vivify Every Moment
Francois Hollande
The 24th President of the French Republic

Francois Hollande has been the President of the French Republic from May 2012 to May 2017. During his mandate, he carried out important reforms which restored the competitiveness and the growth of the French economy. He faced authoritatively the terrorist attacks that afflicted the country in 2015 and 2016. President Hollande took important decisions on behalf of France, in particular the engagement of the Army in Mali in order to fight against terrorist groups located in the Sahel. It is under his presidency that a global climate agreement was adopted in Paris in December 2015. Today, President Hollande chairs the Foundation ‘La France s’engage’ whose mission is to support all initiatives that contribute to reinforcing solidarity and creating bonds between citizens.

Esko Aho
The 37th Prime Minister of Finland

Esko Aho is a former President of Finland Center Party, who was the youngest Prime Minister in history of Finland, at the age of 36. During his presidency, he led Finland to join the European Union (EU). Many valued Aho’s decision as a start of the economic recovery of Finland. In 2008, he joined Nokia and served as Executive Vice President of Corporate Relations and Responsibility. Since 2010, Aho is a Council Member of Skolkovo Foundation, the ‘Russian Silicon Valley.’

Ban Ki-Moon
The 8th Secretary-General of the United Nations

Mr. Ban Ki-Moon served as the 8th Secretary-General of the United Nations (2007-2016). He has pressed successfully for action to combat climate change - an effort that culminated in the adoption and rapid entry into force of Paris Agreement in 2016. Prior to the UN, Mr. Ban spent 37 years with the Ministry of Foreign Affairs and Trade of the Republic of Korea, posted in New Delhi, Washington D.C., and Vienna. During his tenure, he had responsibilities for a variety of portfolios including Foreign Policy Adviser to the President, Chief National Security Adviser to the President, and Vice Minister. Mr. Ban received a bachelor’s degree from Seoul National University and a master’s degree from the Kennedy School of Government at Harvard University.

Mr. Ban received a bachelor’s degree from Seoul National University and a master’s degree from the Kennedy School of Government at Harvard University.

Reince Priebus
The 27th White House Chief of Staff

Reince Priebus was named White House Chief of Staff shortly after the 2016 campaign. Prior to this, Priebus served as the longest-serving chairman of the Republican National Committee in modern history. Priebus built the infrastructure needed for landslide GOP victories. He left the RNC as one of the winningest chairmen of either political party in American history. He worked his way up through the ranks of the Republican Party of Wisconsin as 1st congressional district chairman, state party treasurer, first vice chair, and eventually state party chairman. In 2009, Priebus served as general counsel to the RNC to help manage the party’s most difficult challenges.

Bob Woodward
Pulitzer Prize Winner and Associate Editor, The Washington Post

Bob Woodward is the associate editor of the Washington Post. He has shared in two Pulitzer prizes, first in 1973 for coverage of the Watergate scandal with Carl Bernstein, and second in 2003 for coverage of the 9/11 terrorist attacks. Woodward has authored 19 books which all have been national non-fiction bestsellers. His latest, Fear: Trump in the White House, became a #1 international bestseller. No one digs deeper or has provided a more detailed portrait of the nine presidents - from Nixon to Trump - he has written about for the Post or in books.

David Urban
Chairman of American Battle Monuments Commission

Mr. Urban is the President of the American Continental Group (ACG) as well as a political commentator on CNN. Before joining ACG, Mr. Urban served as the Chief of Staff for United States Senator Arlen Specter (R-PA) and as artillery officer in the United States Army’s storied 101st Airborne Division. Mr. Urban earned a Bachelor of Science degree from the United States Military Academy at West Point, a Master of Government Administration degree from the University of Pennsylvania, and a Juris Doctor from the Temple University School of Law. In 2018, Mr. Urban was appointed to be Chairman of the American Battle Monuments Commission.

Speaker Introduction

Eric Yuan
Founder & CEO of Zoom

Prior to founding Zoom, Eric Yuan was the corporate vice president of engineering at Cisco, where he was responsible for Cisco’s collaboration software development. Between 1997 and 2011, he grew his team from 10 engineers to more than 800 worldwide, and contributed to revenue growth from $0 to more than $800M. In 2017, Eric was added to the Business Insider list of the 52 Most Powerful People in Enterprise Tech. In 2018, he was named the #1 CEO of a large US company by Glassdoor and EY Entrepreneur of the Year in Northern California (software category). Eric is a named inventor on 11 issued and 20 pending patents in real time collaboration. Eric earned a certification from the Stanford University Executive Program.

Steve Chen
Co-Founder of Youtube & Advisor of Google Ventures

Steve Chen was the co-founder and Chief Technology Officer of YouTube. Steve first arrived in Silicon Valley in 1999 to join PayPal. It was at PayPal where Chen met Chad Hurley, the other co-founder of YouTube. In 2005, he joined Facebook for several months before starting YouTube. Steve was instrumental in building YouTube into a viral video phenomenon. He helped lead YouTube through the Google acquisition for $1.65 billion less than a year after launching the site. As the company’s key technologist, Steve was credited with developing the company’s massive data centers and helping build YouTube into a premier entertainment destination and one of the most popular Websites on the Internet today. Steve has recently joined Google Ventures as an EIR(Entrepreneur in Residence).

Jerry Yang
Co-Founder of Yahoo! & Founding Partner of AME Cloud Ventures

Jerry started AME Cloud Ventures with the belief that data, cloud, and hardware advances will create unprecedented opportunities for great companies to be built. Jerry enjoys meeting and learning from entrepreneurs with big ideas and deep tech. Jerry co-founded Yahoo! in 1995 and served on its Board and as a member of its executive team until 2012. Jerry was instrumental in building Yahoo!’s relationships with Yahoo! Japan and Alibaba and continues to be a thought leader in China and Asia. Jerry currently sits on Board of Directors for Workday, Alibaba, and Lenovo.

Hadi Partovi
Founder & CEO of Code.org.

Hadi Partovi is a tech entrepreneur and investor, and CEO of the education nonprofit Code.org. Upon graduating from Harvard with a Masters degree in computer science, Hadi started his career at Microsoft where he rose into the executive ranks. He founded two tech startups, and he has served as an early advisor or investor at many tech startups including Facebook, Dropbox, airbnb, and Uber. In 2013 Hadi and his twin brother Ali ’94 launched Code.org, which has established computer science classes reaching 30% of US students.

Niall Ferguson
Senior Fellow of Harvard University / Stanford University Hoover Institution

Niall Ferguson is one of the most influential commentators on Geopolitics and the Global Economy. He is a senior fellow at the Hoover Institution and a senior fellow of the Center for European Studies. He has published fifteen books, including ‘Empire’ (2003) and ‘Civilization: The West and the Rest’ (2012). His most recent book, ‘The Square and the Tower,’ was a New York Times bestseller. He has received honorary degrees from the University of Buckingham (UK), Macquarie University (Australia), and the Universidad Adolfo Ibáñez (Chile). He is the founder and managing director of Greenmantle LLC. He also serves on the board of Affiliated Managers Group.

Lin Yifu
Professor of National School of Development Peking University

Lin Yifu is Dean of Institute of New Structural Economics, Dean of Institute of South-South Cooperation and Development and Professor and Honorary Dean of National School of Development at Peking University. He was the Senior Vice President and Chief Economist of the World Bank, 2008-2012. He is Counsellor of the State Council and a member of the Standing Committee, Chinese People’s Political Consultation Conference. He is a Corresponding Fellow of the British Academy and a Fellow of the Academy of Sciences for Developing World.
Vitalik Buterin is the creator of Ethereum. He first discovered blockchain and cryptocurrency technologies through Bitcoin in 2011, and immediately saw the potential in this field. He cofounded Bitcoin Magazine in September 2011. After two and a half years looking at what the existing blockchain technology and applications had to offer, he wrote the Ethereum white paper in November 2013. He now leads Ethereum’s research team, working on future versions of the Ethereum protocol.

Vitalik Buterin
Co-Founder and Inventor of Ethereum

Tony Fernandes is best known for co-founding low-cost carrier AirAsia with Datuk Kamarudin Meranun and democratizing air travel in the region. In 2001, the two famously bought the ailing airline for a token MYR1 (approximately USD 0.25) with MYR 40 million (US $11 million) in debt. The next year, they turned the heavily indebted airline into Asia’s largest low-cost carrier. Fernandes studied in the UK, and qualified as an Associate Member of the Association of Chartered Certified Accountants (ACCA) in 1991 and Fellow Member in 1996. He began his career in Virgin Group and later joined Warner Music Group, serving as Vice President from 1999 to 2003. Fernandes has received numerous awards over the course of his career. These include the Honour of the Commander of the Order of the British Empire, conferred by Her Majesty Queen Elizabeth II in 2011, and the Commander of the Legion d’Honneur, awarded by the French government for his outstanding contributions towards the economy of France in 2017.

Tony Fernandes
President of AirAsia

Mr. Young Sohn is President and Chief Strategy Officer for Samsung Electronics, and Chairman of the Board, Harman International. He leads development and strategy for global innovation, investment and new business creation. Mr. Sohn led the $8 billion acquisition of Harman International Industries. Prior to joining Samsung Electronics, he served as CEO of Quai Technologies, Agilent Semiconductor (now Avago) and triph Corporation. He holds a BS in electrical engineering from the University of Pennsylvania and MS from the MIT Sloan School of Management.

Sohn Young-Kwon
Samsung Electronics, President and Chief Strategy Officer

Madam Jo Malone has been described as an ’English scent maverick’ and the woman responsible for creating some of the world’s most loved fragrances. Madam Jo discovered an instinctual talent for creating scented products by hand in her kitchen, and word of her exceptional potions quickly spread. She launched her first brand, Jo Malone London which gained cult status around the world. Although she left the company in 2006, for her service to the beauty industry, Jo was honored with an MBE in 2008. In 2011, she launched her new brand Jo Loves to global anticipation and in 2013.

Jo Malone
Founder of Jo Malone London

James Cathey is senior vice president and president of Global Business for Qualcomm Technologies, Inc. In this role, Cathey has an overall responsibility for all regional activities, including business development, operations, distribution channels and sales, as well as assisting Qualcomm with in-country relationships. Previously, Cathey was president of Qualcomm’s businesses in Asia Pacific and India and he led all business and operations functions for Qualcomm in these regions. Cathey’s prior roles were president of Qualcomm’s operations in Japan, and country manager in Taiwan. Cathey holds seventeen patents and is a member of the Society for Information Display (SID) Cathey earned a Bachelor of Business Administration in marketing from Boise State University.

James Cathey
Qualcomm Global CEO SVP & President of Global Business of Qualcomm Technologies
Jay Lee, vice chairman of Foxconn Technology Group, is a Distinguished Professor at the University of Cincinnati and founding director of Intelligent Maintenance Systems of the National Science Foundation Industry/University Cooperative Research Center. Previously, he served as director for product development and manufacturing at United Technology Research Center as well as program director for a number of programs at NSF, including the I/UCRC Program. Prof. Lee is currently serving as senior advisor to McKinsey & Co., member of the Global Future Council of the World Economic Forum, and Board member of PHM Society, etc.

Fatih Birol has served as Executive Director of the IEA since September 2015. He was re-elected in January 2018 for a second four-year term, which will begin in September 2019. Under his leadership, the IEA has undertaken its first comprehensive modernisation programme since its creation in 1974. This effort focuses on three pillars: opening the doors of the IEA to include major emerging countries, broadening the IEA’s energy security mandate, and making the IEA the global hub for clean energy technologies and energy efficiency. Prior to his nomination as Executive Director, Dr. Birol spent over 20 years at the IEA, rising through the ranks to the position of Chief Economist. He serves on the UN Secretary-General’s Advisory Board on ‘Sustainable Energy for All’.

Dr. Edwin Feulner is the Chairman of The Heritage Foundation’s Asian Studies Center and the Founder of Heritage Foundation. He formerly served as the President of The Heritage Foundation, Washington’s premier conservative policy institute, for 37 years (1977-2013). New Jersey Governor Chris Christie, the Chairman of the Trump for President Transition, has appointed Dr. Feulner as the Senior Advisor for Domestic Policy and Budget and Management of the Presidential Transition. He holds a Ph.D. from the University of Edinburgh (Scotland), an M.B.A. from the Wharton School of the University of Pennsylvania, and a B.Sc. from Regis University (Denver).

Dr. Robin Niblett CMG became the Director of Chatham House (the Royal Institute of International Affairs) in 2007. From 2001 to 2006, he was the Executive Vice President and COO of Washington-based Center for Strategic and International Studies. Dr. Niblett is an expert on UK foreign policy, European political and economic security and transatlantic relations. He was a Special Adviser to the House of Commons Foreign Affairs Committee (2015-17) and a member of the World Economic Forum Global Future Council on International Security (2016). He was Chairman of the Experts Group for the 2014 NATO Summit.

James L. Jones is a former United States National Security Advisor. He has spent his life serving and protecting America and American ideals. As the former commander of US European Command (EUCOM) and Supreme Allied Commander Europe (SACEUR), he led all military operations for NATO from 2003 to 2006. Upon retirement in February 2007, he became the president and CEO of the U.S. Chamber of Commerce’s Institute for 21st Century Energy. He was also the chairman of the Atlantic Council from 2007 to 2009. In 2008, he was appointed as the State Department’s Special Envoy for Middle East Regional Security. He served President Obama from 2009 until 2010.

Rajeev Dubey is the Group President (HR & Corporate Services) & CEO (After-Market Sector). His key focus areas are Human Capital initiatives of the Group and the After-Market businesses. He serves on the Boards of several Group companies including Ssangyong Motors Korea.
