SINCE 2000

ABOUT WORLD KNOWLEDGE FORUM

Following the 1997 Asian financial crisis, the World Knowledge Forum (WKF) was founded in October 2000 after two years of preparation based on the ambition to transform Korea into a knowledge-driven nation. Since then, the World Knowledge Forum has played the role as a platform for active discussions with the aim of reducing knowledge gaps through knowledge sharing and to promote balanced global economic growth and prosperity. A total of approximately 5,518 global speakers and 59,218 audiences have participated since the first forum in 2000 that was held under the theme of "Shaping the New Millennium with Knowledge," and the WKF has now become one of the biggest knowledge-sharing events in the world.

Main speakers we had at the past WKFs include the following: state leaders such as George W. Bush, the 43rd President of the United States; Theresa May, the 76th Prime Minister of the United Kingdom; Nicolas Sarkozy, the 23rd President of the French Republic; and Gerhard Schröder, the 7th Chancellor of Germany; Presidents of international organizations such as Jim Yong Kim, the 12th President of the World Bank; founders and CEOs such as Bill Gates, Co-founder of the Microsoft Corporation; Larry Ellison, Chairman and CEO of the Oracle Corporation; John L. Hennessy, Chairman of Alphabet; George Soros, Chairman of Soros Fund Management, and scholars such as Larry Summers, Paul Krugman, Michael Porter, and Gregory Mankiw.

At the World Knowledge Forum 2022, speakers and audiences gathered both offline and online to discuss various agendas under the theme of "Supercompensation: Restoring Global Prosperity & Freedom."

David Cameron, The 75th Prime Minister of the United Kingdom; Paul Krugman, Distinguished Professor at City University of New York; John Bolton, The 26th United States National Security Advisor; Ray Dalio, Founder of Bridgewater Associates; Francis Fukuyama, Professor at Stanford University; Joseph Nye, Professor at Harvard University; Maria Ressa, CEO of Rappler (2021 Nobel Prize Laureate in peace); John Taylor, Professor at Stanford University; Bob Sternfels, Global Managing Partner of McKinsey & Company; Mark Read, CEO of WPP; Ben Nelson, Chancellor at Minerva University; Min Jin Lee, Author of 'Pachinko'; and many other world renowned speakers participated in the World Knowledge Forum 2022 and graced the occasion with their presence.

Brand Identity of the World Knowledge Forum

Brand Identity (BI) of the World Knowledge Forum embodies the world moving towards the future centered by the World Knowledge Forum. The BI carries the philosophy of the World Knowledge Forum; center of the global economy, challenge against the future, and the power of human connection. The BI symbolizes that the World Knowledge Forum, representing Asia, serves as a platform to project the future of politics, economy, business, and society based on knowledge-sharing.

INVITATION

With gracious support and enthusiasm from many knowledge seekers around the world, the World Knowledge Forum has grown into one of the most prominent knowledge hubs in the world. Each year, the World Knowledge Forum has been developing its contents and addressed numerous global agendas with approximately 350 speakers and 4,500 audience.

In order to meet the encouragement and expectations of many who wait for the World Knowledge Forum every September, we have set the stage again for the best speakers and themes to look ahead for 2023.

The World Knowledge Forum 2023 is scheduled to take place from September 12th through 14th in 2023, and we will come up with the best action plans for important global issues at hand. In-depth discussions on geopolitics, business, and social issues will be made at the World Knowledge Forum 2023.
